

# 2020

## ORIGINS PhD “Theory”

## ORIGINS PhD “Experiment/Observation”

# Award

PARTICLE PHYSICS | NUCLEAR PHYSICS | ASTROPHYSICS | BIOPHYSICS

- each endowed with 2.000 €
- most outstanding PhD Thesis within particle-, nuclear-, astro- and biophysics
- graded between 16 July 2019 and 15 July 2020
- closing date: 15 July 2020

#### Call for ORIGINS PhD Awards 2020 now open:

Once a year, the Excellence Cluster ORIGINS honors two **outstanding PhD** theses submitted in the fields of **particle-, nuclear-, astro- and biophysics**. One dissertation in the category “**theory**” and one in the category “**experiment/observation**” will be given an endowment of 2.000 € each. The winners will be invited to present their work during the Science Week 2020.

Candidates have to be nominated by their supervisors who must be members of one of the partner institutes of the Excellence Clusters ORIGINS: LMU, TUM, MPA, MPE, MPP, MPIB, IPP, ESO, LRZ or HLL. The candidates have to be members of these institutions as well. Supervisors have to submit a maximum two-page statement on behalf of their nominees. Candidates are asked to provide their PhD thesis as a PDF file.

An eligible thesis must have been **submitted, reviewed and graded at TUM or LMU** between **16 July 2019 and 15 July 2020**. The closing date will be 15 July 2020. The entries will be evaluated by an independent committee of the Excellence Cluster ORIGINS. The committee will then identify the most outstanding work in each of the two categories.

**Nominations for the awards should be directed to:**

**Excellence Cluster ORIGINS**

**Stefan Waldenmaier**

**Boltzmannstr. 2**

**85748 Garching**
